

Supporting Document 1: Public and Private Partnerships

Partner	Selected Partnership Highlights
Other HRSA MCHB Investments	
Early Childhood Comprehensive Systems (ECCS) Impact Program	<ul style="list-style-type: none"> • Original NYS ECCS grant co-led by Title V and Council on Children and Families (CCF); subsequently transferred to CCF, with continued Title V engagement to support current grant focus on implementing child care quality standards and supporting child care health consultants
State Systems Development Initiative (SSDI)	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH • SSDI staff support development of measures, review and analysis of data to support MCH planning and projects and assist with MCHSBG reporting
Maternal, Infant and Early Childhood Home Visiting (MIECHV)	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH, Bureau of Women, Infant & Adolescent Health • Strong focus on systems-building integrates MIECHV with other Title V and MCH resources • MCH and MIECHV needs assessments are coordinated within DFH
MCH Public Health Catalyst Program	<ul style="list-style-type: none"> • Based at U Albany School of Public Health • Program co-founded (2015) in partnership with Title V Program; past NYS Title V Director serves as Co-Director of the Catalyst Program at U Albany. • Extensive formal collaboration to assist DFH in planning, implementing, and writing the 2020-25 Statewide Title V Needs Assessment and Action Plan • Collaborated in 2019 to implement legislative award to SPH for a maternal health initiative, including a nationally-disseminated <i>Public Health Live</i> webcast on maternal mortality • Title V Director and other staff regularly serve as guest lecturers in MCH courses at SPH • Ongoing partnership to support student practicums, internships, and assistantships based in DFH

Partner	Selected Partnership Highlights
Autism Research Grant	<ul style="list-style-type: none"> Completed a multi-year research project funded by the federal MCHB R-40 research program to evaluate the impact of participation in the State's EIP on toddlers with ASD and their families. Identified ASD-specific outcomes expected to be achieved through EIP services. Results were used to modify a family survey, including an Impact on Child scale and Impact on Family scale, to include outcomes expected for ASD toddlers and their families.
Healthy Start	<ul style="list-style-type: none"> In collaboration with the HRSA Regional Healthy Start Project Officer, Title V program coordinates communication and collaboration between the Healthy Start and Title V Maternal, Infant & Child Health Collaboratives (MICHC) programs. Ensure MICHC projects engage the 7 Healthy Start grantees serving common communities in outreach, intake and referral processes. Share webinar trainings and educational materials developed by the Maternal and Infant Health Center of Excellence with Healthy Start grantees. The NYS Infant Mortality Collaborative Improvement & Innovation Network (IM CoIIN) has engaged and is collaborating with Healthy Start agencies as part of its Safe Sleep Project with a goal of improving infant safe sleep practices to reduce infant mortality.
Parent to Parent of NYS	<ul style="list-style-type: none"> NY State's Family-to-Family (F2F) grantee Provided input, guidance and outreach for input on NY's Title V comprehensive needs assessment. Title V staff collaborate with PTP to ensure the "parent voice" and point of view is reflected. For example, provided input into the parent materials on CCHD screening.
Early Hearing Detection and Intervention (EHDI)	<ul style="list-style-type: none"> Directly administered by DFH, Bureau of Early Intervention Works to ensure that screening occurs within the first month of life, infants requiring re-screening and/or diagnostic audiological evaluation receive services by three months of age, and infants identified as deaf or hard of hearing are connected with appropriate EI services no later than six months of age
New York-Mid-Atlantic Consortium for Genetics and Newborn Screening Services (NYMAC)	<ul style="list-style-type: none"> Title V staff facilitated webinars on adolescent transition to adult services for genetic services providers, health care providers and CSHCN program.

Partner	Selected Partnership Highlights
Other MCH Workforce Training Programs	<ul style="list-style-type: none"> • Title V participates in ongoing meetings with the Leadership Education in Neurodevelopment and Related Disabilities (LEND) fellows to share information regarding their post-graduate maternal and child health work performed as part of their fellowship training. Meetings also include representatives from the Developmental Disabilities Planning Council (DDPC), Disability Rights New York, Division of Family Children's Services, and CSHCN and other key stakeholders. • Title V staff representing the New York State Perinatal Quality Collaborative (NYSPQC) are participating in the Institute for Healthcare Improvement (IHI) Breakthrough Through Series (BTS) College training focused on improving the skills of state-based PQC's.
Other Federal Investments	
Individuals with Disabilities Education Act (IDEA) Part C - OSEP	<ul style="list-style-type: none"> • Part C grant and EI is directly managed by Title V program within DFH. • DOH is the NYS designated lead agency to administer the EIP, a statewide service delivery system for infants and toddlers (ages birth to three) with disabilities and their families
Personal Responsibility Education Program (PREP) – HHS	<ul style="list-style-type: none"> • Directly administered by DFH, Bureau of Women, Infant, and Adolescent Health • Promotes sexual health among adolescents 10-19 years, and pregnant and parenting youth in high need geographical areas through local community projects • Collaborates with CAPP and SRAE programs to enhance pregnancy prevention efforts in the highest need communities, and CFPP to provide family planning and reproductive health referrals
Rape Prevention Education - CDC	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH. Development of a multi-faceted plan to evaluate regional and statewide activities to reduce sexual violence
Special Supplemental Program for Women, Infants & Children (WIC) - USDA	<ul style="list-style-type: none"> • Managed by DOH Division of Nutrition. • Title V programs (e.g., home visiting) link eligible MCH populations to WIC resources • Exploring collaborations to promote oral health through WIC Program • NYS IM CoIIN Safe Sleep Project collaborates with WIC to disseminate messaging and resources related to infant safe sleep.

Partner	Selected Partnership Highlights
Child Care Development Block Grant - ACF	<ul style="list-style-type: none"> • Managed by NYS Office of Children and Family Services. • Development of child care health and safety standards, including medication administration, as well as quality indicators for QualityStars NY • Plan to collaborate on development of subset of quality indicators for regulated child care settings in upcoming year
Support for Pregnant and Parenting Teens- OPA	<ul style="list-style-type: none"> • Directly managed by Title V program within DFH. Enhances services of Title V programming by engaging pregnant and parenting teens and young adults in educational and vocational opportunities.
Sexual Risk Avoidance Education Program (SRAE)	<ul style="list-style-type: none"> • Directly managed by DFH Bureau of Women, Infant, and Adolescent Health • Promotes abstinence from sexual activity and supports a health transition to adolescence for youth ages 10-13 through the use of evidence-based education, adult supervised program and parenting education
Other HRSA Programs	
Federally Qualified Health Centers (FQHC)	<ul style="list-style-type: none"> • In collaboration with OPCHSM, the Title V Program facilitates approval of site establishment/ expansion applications to build or renovate school-based health and dental clinics funded by HRSA grants
HRSA Oral Health Workforce Development	<ul style="list-style-type: none"> • Directly managed by DFH, Bureau of Child Health • Works to enhance the capacity of dental workforce to meet the needs of underserved communities in dental health professional shortage areas, and SBHC settings • Collaborates with SBHC program to integrate oral health standards into current standards for providing medical services, with a focus on increasing fluoride varnish applications in the medical setting and decreasing opioid prescribing in the dental setting.

Partner	Selected Partnership Highlights
Other NYSDOH Division of Family Health Programs & Initiatives	
Enough is Enough	<ul style="list-style-type: none"> • Directly managed by DFH, Bureau of Women, Infants and Adolescent Health • Provides support to rape crisis programs to assist colleges/universities in providing sexual assault prevention, education and victim services on campus • As part of 2020-21 State of the State, the EiE program is expanding the use of Arizona State University's evidence-informed Safer Bars Initiative, to provide training to alcohol-serving establishments where college students frequent
Infertility Demonstration Program	<ul style="list-style-type: none"> • Directly managed by DFH, Bureau of Women, Infants, and Adolescent Health • Provides high level infertility services to insured women with diagnosed infertility
Maternal and Early Childhood Foundation	<ul style="list-style-type: none"> • Directly managed by DFH, Bureau of Women, Infants and Adolescent Health • Provides prenatal and postnatal services to high-need, pregnant and parenting individuals and their families
Other NYS Department of Health Programs	
Division of Chronic Disease Prevention	<ul style="list-style-type: none"> • Title V staff in collaboration with the Division of Chronic Disease Prevention jointly developed media campaign on tobacco use among women of reproductive age and during pregnancy • Title V staff in collaboration with the Division of Chronic Disease Prevention integrated new family planning/preconception health module within state's BRFSS, including expanded BRFSS for county-level data • Support hospital- and community-based strategies to promote breastfeeding in alignment with evidence-based obesity prevention programming • Promoted evidenced-based models and methods to implement and sustain a population-based, system change response to reduce asthma-related hospitalizations. • Will explore options to promote preconception and interconception health for the MCH population.

Partner	Selected Partnership Highlights
Division of Nutrition	<ul style="list-style-type: none"> • Title V staff facilitated collaboration between nutrition programs and state's ECAC to expand enrollment in CACFP and incorporate nutrition standards and implementation supports within child care quality standards • Promoted participation in CACFP with Title V afterschool programs serving high-need youth and helped link to new Community Schools initiative • Title V staff are exploring collaborations to promote oral health through statewide nutrition programs including WIC and HPNAP • Title V staff are working with WIC to promote reciprocal referrals with home visiting programs. Pilot has been completed, with a statewide roll out planned for summer of 2020
Division of Epidemiology	<ul style="list-style-type: none"> • Title V staff are working with Immunization program on providing training and educational tools for home visitors to support education to clients on importance and scheduling of required immunizations, and training of home visitors on the importance they themselves be up to date on immunizations. • Title V staff incorporated technical guidance on current immunization recommendations in clinical quality measures for SBHC program. • Title V staff are working with Immunization program to promote recommended immunizations (e.g. influenza and TDAP) for pregnant women.

Partner	Selected Partnership Highlights
AIDS Institute	<ul style="list-style-type: none"> • Title V staff are collaborating with the DOH AIDS Institute and the State Education Department to promote the delivery of evidence-based HIV/STI prevention and sexual health promotion education. • Title V staff representing the NYSPQC continue collaboration with the NYSDOH AIDS Institute as part of the NYS Opioid Use Disorder (OUD) in Pregnancy & Neonatal Abstinence Syndrome (NAS) Project. Staff from the AIDS Institute serve on the project's Clinical Advisory Work Group and participate in the NYS . Additionally, Title V staff have engaged staff from the NYSDOH AIDS Institute to participate with them in the Opioid Use Disorder, Maternal Outcome, Neonatal Abstinence Syndrome Initiative (OMNI). As part of these collaborations, webinar opportunities have been developed and buprenorphine waiver trainings are under development to increase the proportion of perinatal providers eligible to provide MAT to pregnant and postpartum people with OUD. • Title V staff, under the HRSA Oral Health Workforce Grant, are consulting with the Office of Drug User Health to develop a public health detailing campaign to address opioid prescribing in the dental setting using a health literacy lens. The risk of prescribing opioids to adolescents and young adults is a focus of the training. • Title V staff, under the Family Planning Program, collaborate with the Office of Sexual Health & Epidemiology to improve screening for STIs for individuals of reproductive age.
Center for Environmental Health	<ul style="list-style-type: none"> • Title V staff are collaborating with the Bureau of Occupational Health and Injury Prevention on evaluating the impact of DOH sexual violence prevention interventions • Title V staff are working with Injury Prevention to promote Safe Sleep through Infant Mortality COIIN. Title V staff are collaborating with DOH Center for Environmental Health to support maintenance and expansion of community water fluoridation, including joint development of new initiative. • Ongoing collaboration to promote healthy living environments.
NY State of Health (Health Insurance Exchange)	<ul style="list-style-type: none"> • Title V staff assisted with outreach to MCH programs to solicit patient navigators • Title V staff in collaboration with OHIP, facilitated training and the provision of information on NY's health benefit package and coverage to MCH programs and initiatives. Continue to monitor questions and issues that arise.

Partner	Selected Partnership Highlights
Office of Quality & Patient Safety	<ul style="list-style-type: none"> • Title V staff provided input into the development of standards for Medicaid Prenatal Care clinics. • Title V staff provide input to and serve on workgroups for the development and implementation of the SHIP and the development of models of Advanced Primary Care (APC). • Title V staff are collaborating on a CMS project with OHIP through NYSPQC as collaboration of regional perinatal centers to improve perinatal outcomes. • Title V staff have a strong partnership with the Office of Quality and Patient Safety to obtain vital statistics, hospital discharge, and Medicaid data for identification of priorities, program planning and evaluation as well as quality improvement initiatives and are collaborating on the development of a perinatal warehouse to provide near-real time feedback to hospitals and regional perinatal centers on MCH key indicators.
Office of Primary Care and Health Systems Management	<ul style="list-style-type: none"> • In collaboration with Title V staff, provides certificate of need (CON) approval to SBHC and SBHC-Dental clinics. Also provides CON approval to family planning clinics and consults with Title V staff for programmatic input. • In collaboration with Title V staff, developed standards and criteria for oversees the system of perinatal regionalization • Title V staff in conjunction with the Office of Victim Services developed communication disseminated to all NYS hospitals reminding them of the requirements concerning the reimbursement of forensic rape exams. • Title V staff, through the Maternal Mortality Review Program, has established a partnership with the Bureau of Narcotics Enforcement within the Office of Primary Care and Health Systems Management to get prescription drug Information for Maternal Mortality Review. • - Title V staff provide review of all labor & delivery/maternity and NICU-related Certificate of Need requests, including construction, modification, new facility establishment and L&D closure requests. • - Title V staff have partnered with OPCHSM to establish guidelines for expedited review of requests during the COVID-19 public health emergency in which specific requirements were eased through Executive Order. • -Title V staff, under the HRSA Oral Health Workforce Grant, are consulting with the Bureau of Narcotic Enforcement to develop a public health detailing campaign to address opioid prescribing in the dental setting using a health literacy lens. The risk of prescribing opioids to adolescents and young adults is a focus of the training.

Partner	Selected Partnership Highlights
Office of Minority Health & Health Disparities	<ul style="list-style-type: none"> • Title V staff are collaborating with DOH Office of Minority Health to develop plan to work with Tribal Nations to develop protocol to ensure that diagnostic services related to cancer screening that take place off reservation with a medical partner of the Cancer Services program, are charged to NYS CSP, to maximize utilization of AIHP funds for outpatient and pharmacy needs.
Office of Public Health Practice	<ul style="list-style-type: none"> • Title V staff collaborate with the Office of Public Health Practice to provide guidance and training for LHDs to strengthen their efforts with the MCH population. • Title V staff are engaging with PHHPC public health committee on systems strategies to reduce maternal mortality
Office of Health Insurance Programs	<ul style="list-style-type: none"> • Title V staff are involved in ongoing collaboration to promote access to the Medicaid Family Planning Benefit Program • Title V staff work with OHIP to access vital statistics for evidence-based, data driven evaluation of activities. • Title V is working with OHIP to integrate perinatal health strategies and measures within DSRIP. • Title V staff are implementing Medicaid-funded demonstration project to use health information technology to improve screening and coordinated follow-up for high risk pregnant women • Title V staff worked with DOH OHIP to convert Family Planning Benefit Program from 1115 waiver to state plan service pursuant to ACA, and expanded to include presumptive eligibility • Title V staff are extensively engaged in development and implementation of new Health Home benefit for CSHCN, including services for children enrolled in EI services • Title V staff and OHIP are jointly leading stakeholder workgroup to facilitate transition of MA coverage for SBHC services from fee-for-service to managed care. • Title V staff provide expertise in the development of Medicaid payment policies such as deliveries prior to 39 weeks without medical indication including C-sections, oral health and other areas impacting the MCH population. • Title V staff, through the NYSPQC's NYS OUD in Pregnancy & NAS Project, have engaged and are collaborating with OHIP as part of the OMNI. • - Title V staff, under the HRSA Oral Health Workforce Grant, are consulting with OHIP in the development of a public health detailing campaign to increase the number of young children receiving a fluoride varnish application in the medical setting.

Partner	Selected Partnership Highlights
Other State Agencies	
Office of Mental Health (OMH)	<ul style="list-style-type: none"> • Title V staff are collaborating with OMH to increase awareness of maternal depression, including providing information to providers and pregnant and postpartum women. • Title V staff are developing collaborative strategies with OMH to support young children's social and emotional development and provide supports for parents. • Title V staff, through the NYSPQC's NYS OUD in Pregnancy & NAS Project and NYS Obstetric Hemorrhage Project have engaged and are collaborating with staff from OMH. OMH staff are serving on the clinical advisory work groups of both projects. Additionally, the NYSPQC is collaborating with Project TEACH's Maternal Mental Health Initiative to provide training opportunities and resources to NYSPQC hospital teams. • Title V staff, through the Maternal Mortality Review Program, has established a partnership with the OMH to gain access to the Psychiatric Services and Clinical Knowledge Enhancement System (PSYCKES) developed by OMH to obtain Psychiatric Services and Clinical information for NYS Medicaid members to facilitate Maternal Mortality Review.

Partner	Selected Partnership Highlights
Office of Addiction Services and Supports (OASAS)	<ul style="list-style-type: none"> • Title V staff are collaborating with OASAS to increase awareness of FASD amongst providers and preconception and prenatal women. • Title V staff are collaborating with OASAS to develop strategies to identify pregnant women with opioid use and ensure they are engaged in prenatal care, substance use treatment and other needed services. • Title V staff serve on the Fetal Alcohol Spectrum Disorder (FASD) workgroup that includes state agencies as well as providers and other stakeholders to develop strategies to address FASD. Developed public awareness messages on the importance of abstaining from alcohol while pregnant. Provided information to the American Indian Health Nations on FASD. • Title V staff, through the NYSPQC's NYS OUD in Pregnancy & NAS Project have engaged and are collaborating with staff from OASAS. OASAS staff serve on the project's clinical advisory work group. • Collaborated to develop community resource mapping tools to improve linkages to care, and on webinar opportunities to assist with training hospital teams regarding linkages to care. • MIECHV needs assessment requires input from OASAS regarding substance use among pregnant individuals and families with young children.
Office of Children and Family Services (OCFS)	<ul style="list-style-type: none"> • Title V staff are collaborating with OCFS to provide training and technical assistance to home visiting programs including improving outreach and retention strategies and delivery of information and supports impacting maternal and infant health and early childhood development. • Title V staff provided input on the Navigating Multiple Systems site to ensure the issues and interests of the MCH population, including CSHCN are represented. • Title V staff, through the NYSPQC and NYS IM CoIIN, continue to collaborate with staff from OCFS related to infant safe sleep. OCFS receives approximately half of the MIECHV grant and provides training and technical assistance to the Healthy Families New York home visiting programs statewide. MIECHV staff work with OCFS for coordinated intake and referrals between HV programs.

Partner	Selected Partnership Highlights
Office of Prevention of Domestic Violence (OPDV)	<ul style="list-style-type: none"> • Title V staff are involved in ongoing collaboration to address the domestic violence-related training needs of staff working in community maternal & child health, home visiting and family planning programs • Title V staff are collaborating with OPDV on development of training for home visitors on engagement and retention on high-risk clients including those who experience domestic violence. • Title V staff collaborate with OPDV to develop and distribute materials to providers, to increase awareness of domestic violence, supports, resources and tools. • Title V staff, through the Enough is Enough Program, collaborate with multiple state agencies for ongoing implementation of the Enough is Enough law; recent efforts include the expansion of Safer Bars initiative, and dissemination of information related to the amended federal Title IX rule (published May 19, 2020) between state agencies and with community partners.
Office of People with Developmental Disabilities (OPWDD)	<ul style="list-style-type: none"> • Title V staff partner with OPWDD on various issues related to individuals with disabilities.
Office of Victim Services (OVS)	<ul style="list-style-type: none"> • Title V staff are involved in ongoing collaboration to address needs of programs funded to serve victims of sexual violence and respond to issues that impact victims of sexual violence • Title V staff, through the SAFE program, developed and disseminated communications to NYS hospitals and rape crisis programs regarding new sexual assault legislation and reimbursement of forensic rape exams. • Title V staff collaborate with OVS, AI, and OPCHSM to create an annual report on hospital treatment of sexual assault patients and the cost of their services. • Title V staff collaborate with OVS on a workgroup to develop and distribute the New York State Sexual Assault Bill of Rights. • Title V staff collaborate with OVS on a workgroup to improve the New York State Sexual Offense Evidence Collection Kit, kit storage, and kit tracking.

Partner	Selected Partnership Highlights
State Education Department (SED)	<ul style="list-style-type: none"> • Title V staff provide technical assistance to Community schools to promote collaboration to maximize resources available to children and adolescents in those schools. • Title V staff, through the Enough is Enough Program, collaborate with multiple state agencies for ongoing implementation of the Enough is Enough law; recent efforts include the expansion of Safer Bars initiative, and dissemination of information related to the amended federal Title IX rule (published May 19, 2020) between state agencies and with community partners.
New York State Police	<ul style="list-style-type: none"> • Title V staff collaborate with State Police on a workgroup to develop and distribute the New York State Sexual Assault Bill of Rights. • Title V staff collaborate with State Police on a workgroup to improve the New York State Sexual Offense Evidence Collection Kit, Kit storage, and Kit tracking.
Council on Children and Families (CCF)	<ul style="list-style-type: none"> • Title V staff work with CCF on the ECAC, ECCS grant and other early childhood initiatives. • MIECHV work with CCF staff to create an online map of NYS home visiting services
Tribal and Local MCH Programs	
Local Health Departments/ New York State Association of County Health Officials	<ul style="list-style-type: none"> • Title V developed Family Health components of updated statute, regulations and implementing guidance documents for State Aid to localities for core public health (Article VI) • Regular meetings with NYSACHO Steering and MCH committees and ad hoc work groups for input on CSHCN program planning, Health Home, Early Intervention and Title V needs and priorities • Collaborating to develop training and technical assistance for all LHDs to improve MCH outcomes on the local level.

Partner	Selected Partnership Highlights
Tribes, Tribal Organizations and Urban Indian Organizations	<ul style="list-style-type: none"> • Title V program administers a state program that provides access to primary medical care, dental care, eye care, pharmacy needs and preventive health services for approximately 25,000 Native Americans living within reservation communities. This includes nine recognized American Indian nations in NYS: Tonawanda, Tuscarora, Onondaga, Shinnecock, Unkechaug, Cayuga, St Regis Mohawk, Seneca and Oneida. • Title V staff serve as liaison with the Nations to ensure the interests of the nations are represented in decisions and information, such as ACA- related information, is conveyed to Nation leadership. • Title V staff participated in quarterly Tribal Consultation meetings with Office of Children and Family Services to share resources on child wellness, behavioral health, victim assistance programs, and educational resources for families. • Title V staff collaborated with CDC immunization liaison to encourage tribal participation in Vaccine for Children program and adult vaccine program.
Academic and Professional Institutions and Organizations	
SUNY Albany School of Public Health (SPH)	<ul style="list-style-type: none"> • Title V supports MCH student internships focusing on providing these students with public health experience at DOH on MCH initiatives. • Title V staff collaborated with the SPH on a series of webinars to improve knowledge and practices including topics such as breastfeeding and screening for Critical Congenital Heart Defects (CCHD). • Title V staff collaborated with the SPH on the development of a successful MCH catalyst grant. • Title V staff collaborated with the SPH Maternal and Child Health Program to conduct a literature review of research, policy and guidance related to COVID-19's impact on pregnancy. • -Title V staff, under the HRSA Oral Health Workforce Grant, are collaborating with SPH on a series of continuing education webinars for local health departments and medical professionals on oral health in the primary care medical setting. MIECHV needs assessment completed with the assistance of SPH MPH interns.

Partner	Selected Partnership Highlights
Professional Medical Organizations	<ul style="list-style-type: none"> • Title V staff collaborate with ACOG to develop and promote best practices to improve perinatal outcomes. • Title V staff coordinate NY's Maternal Mortality Review Committee that includes representatives from NY Academy of Medicine, ACOG, NYS Society of Pathologists, NYS Nurses Association, NYS Association of County Health Officials, NYS Association of Licensed Midwives, NYS Academy of Family Physicians, National Association of Social Workers, NYC Department of Health and Mental Hygiene, NYS Association of County Coroners and Medical Examiners, NYC Office of the Chief Medical Examiner, Association of Regional and Perinatal Networks, NYS Office of Alcoholism and Substance Abuse, NY American College of Emergency Physicians, Medical Society of the State of New York, NYS Society of Anesthesiologists, NYS Dietetic Association, Greater New York Hospital Association, Healthcare Association of NYS, and Regional Perinatal Centers. • Title V staff, through the NYSPQC, lead the NYS Obstetric Hemorrhage Project and NYS OUD in Pregnancy & NAS Project in collaboration with ACOG District II. • Title V staff, through the NYSPQC and NYS IM CoIIN, continue to work with ACOG District II and the American Academy of Pediatrics to disseminate infant safe sleep messaging. • Title V staff, through the NYSPQC, are collaborating with the NYS chapter of AWHONN to develop trainings for hospital teams to improve skills related to quantification of blood loss for obstetric patients. • Title V staff, through the NYSPQC, participate in the national ACOG Alliance for Innovation on Maternal Health (AIM), and additionally, serve on the project's metrics work group. • NY's Maternal Mortality Review Committee that includes representatives from ACOG, NYS Academy of Family Physicians, NYS Perinatal Association, Association of Regional Perinatal Programs and Networks, NYS Medicaid Office, NYS Nurses Association, NYS Association of County Health Officials, NYS Association of Licensed Midwives, NYC Department of Mental Health and Hygiene, Greater New York Hospital Association, Healthcare Association of NYS, Regional Perinatal Centers, and the NYS Office of Mental Health.

Partner	Selected Partnership Highlights
Cornell University	<ul style="list-style-type: none"> • Title V staff collaborate with Cornell through the Center of Excellence to support implementation of evidence-based programming and evaluation of adolescent pregnancy prevention/pregnant and parenting teen activities. • Title V staff, through the NYSPQC and NYS IM CoIIN, continue to work with ACOG District II and the American Academy of Pediatrics to disseminate infant safe sleep messaging.
University of Rochester	<ul style="list-style-type: none"> • Title V staff collaborate with the University of Rochester through the Center of Excellence on training, technical assistance and evaluation of community maternal and infant health initiatives. • Title V staff, through the NYSPQC, are collaborating with the NYS chapter of AWHONN to develop trainings for hospital teams to improve skills related to quantification of blood loss for obstetric patients.
Columbia University	<ul style="list-style-type: none"> • Title V staff collaborate with Columbia University to develop training for health care providers on adolescent health topics to improve general and sexual health outcomes. • Title V staff, through the NYSPQC, participate in the national ACOG Alliance for Innovation on Maternal Health (AIM), and additionally, serve on the project's metrics work group.
University of Albany Center for Human Services Research	<ul style="list-style-type: none"> • Title V staff collaborate with the University at Albany on data management for community maternal and infant health initiatives. • NY's Maternal Mortality Review Committee that includes representatives from ACOG, NYS Academy of Family Physicians, NYS Perinatal Association, Association of Regional Perinatal Programs and Networks, NYS Medicaid Office, NYS Nurses Association, NYS Association of County Health Officials, NYS Association of Licensed Midwives, NYC Department of Mental Health and Hygiene, Greater New York Hospital Association, Healthcare Association of NYS, Regional Perinatal Centers, and the NYS Office of Mental Health.
University at Buffalo School of Dental Medicine and School of Pharmacy	<ul style="list-style-type: none"> • Title V staff, under the HRSA Oral Health Workforce Grant, are collaborating with (UB) on a continuing education training for dentists on opioid prescribing in the dental setting using a health literacy lens.

Partner	Selected Partnership Highlights
Other NYS MCH-serving organizations	
Schuyler Center for Analysis and Advocacy (SCAA)	<ul style="list-style-type: none"> Title V staff participate on the SCAA State Home Visiting Workgroup which facilitates discussions on the critical elements of a statewide home visiting system including outreach and engagement of high-risk families, promotion of a continuum of services, and quantifying need for services. Title V staff collaborate with SCAA to promote community water fluoridation, and address early childhood caries through community engagement
Hands and Voices	<ul style="list-style-type: none"> Organization comprised of parents and providers dedicated to supporting families with children who are deaf or hard of hearing, regardless of communication modes or methodologies. Provides input into NY's Early Hearing Detection Initiative.
NYS CoIIN to Reduce Infant Mortality	<ul style="list-style-type: none"> Collaboration of Title V, the National Institute for Children's Health Quality, and community-based organizations, including MICHCs and Healthy Start, to reduce infant mortality by using evidence based strategies to accomplish the common aim.
New York School-Based Health Alliance (NYSBHA)	<ul style="list-style-type: none"> An advocacy organization representing the interests of school-based health centers (SBHCs) across New York State. Consultation with this organization provides a better understanding of the needs and concerns of clinics and their Article 28 operators. NYSBHA representatives have been active participants in the work towards transitioning SBHCs into Medicaid Managed Care and will be consulted as part of the work to revise current program guidance.
Greater New York Hospital Association (GNYHA)	<ul style="list-style-type: none"> Title V staff collaborate on a workgroup to develop and distribute the New York State Sexual Assault Bill of Rights.
Healthcare Association of New York State	<ul style="list-style-type: none"> Title V staff collaborate on a workgroup to develop and distribute the New York State Sexual Assault Bill of Rights.
Community Health Care Association of New York State (CHCANYS)	<ul style="list-style-type: none"> An advocacy organization representing the interests of federally qualified health centers (FQHCs) across New York State. All school-based health centers (SBHCs) are operated by Article 28 hospitals or diagnostic and treatment centers, many of which are FQHCs. Additionally, many SBHCs are individually classified as FQHCs. Consultation with this organization provides a better understanding of the needs and concerns specific to FQHCs. CHCANYS representatives have been active participants in the work towards transitioning SBHCs into Medicaid Managed Care and will be consulted as part of the work to revise current program guidance.

Partner	Selected Partnership Highlights
State Advisory Councils	
Maternal and Child Health Services Block Grant (MCHSBG) Advisory Council	<ul style="list-style-type: none"> • Title V staff convene and provide staff support to Council • Through regular virtual and in-person meetings, Council members provide input and feedback on full range of Title V priorities and activities.
Early Intervention Coordinating Council (EICC)	<ul style="list-style-type: none"> • Title V/Early Intervention staff convene and provide staff support to Council • Extensive input on EI policy and program activities including State Systemic Improvement Plan to improve family outcomes • Co-convened, with ECAC, Joint Task Force on Social Emotional Development of Young Children
Early Childhood Advisory Council (ECAC)	<ul style="list-style-type: none"> • Title V staff represented on Council, Steering Committee and work groups • Development and implementation of health-related quality standards for QualityStarsNY (NY's tiered quality rating and improvement system for early learning programs) • Co-convening, with EICC, of Joint Task Force on Social Emotional Development of Young Children • In June 2019, convened a taskforce to develop recommendations for the Department to increase provider workforce capacity to deliver EI services to eligible children with developmental delays or disabilities and their families.
NYS Office of Victims Services Advisory Council	<ul style="list-style-type: none"> • Title V staff represented on Council; provides expertise regarding prevention of sexual violence. •
Office for the Prevention of Domestic Violence	<ul style="list-style-type: none"> • Title V staff represented on Council; provides expertise regarding prevention of sexual violence and intimate partner violence.
Maternal Mortality and Morbidity Advisory Council	<ul style="list-style-type: none"> • Convened by the Title V program with representation from over 20 professional organizations and associations. • Reviews aggregate data, discusses trends and emerging issues and provides recommendations regarding opportunities for improvement including preventive measures, strategies to improve care and medical management, and educational need to be addressed.
